The long-awaited arrival of Richard T. Slone's "Silva vs. Belfort" art edition is finally here! Slone, a multi award winning artist, has unveiled his new painting of MMA legends Anderson Silva and Vitor Belfort, just days before the two face off on February 5 in UFC 126 at Mandalay Bay Resort and Casino in Las Vegas.

Slone's superb pre-fight painting captures UFC middleweight king Anderson Silva in full flight, as he attempts a flying knee against fellow Brazilian and MMA icon Vitor Belfort who is ferociously forging forward in a painting that boldly shows why Slone is one of the most sought after young artists of our time. Slone has brilliantly captured the sheer attitude, athleticism and desire that have made these warriors two of the most celebrated fighters to grace MMA.

Slone's choice of colors and contrast bring this painting to life, he masterfully captures all the action of one of the world's most eagerly awaited sporting events in this pre fight action painting. Slone's unique ability to grasp movement and focus has never been more evident.

Slone was commissioned to create this art by the Fight Museum in Las Vegas. Fight Museum will publish only 126 archival limited edition giclee's - the rare edition is autographed by Anderson Silva and Vitor Belfort.

"We're pleased to partner with Anderson Silva, Vitor Belfort and world renowned artist Richard T. Slone to create a museum quality art edition that commemorates this upcoming super fight" said Ron Pellizzari, Director of Fight Museum, "Both fighters were thrilled and honored to have Slone paint them and we're expecting a quick sell out of the edition since there's only 126 produced worldwide - collectors should act fast to avoid disappointment".

"Silva vs. Belfort" is a must for any serious Slone collector or MMA fan. This is a can't miss investment for any collector as it is one of his best paintings to date and both fighters have autographed each giclee in the edition. Each giclee is accompanied with a certificate of authenticity, photo of the signing and travelling tube.
